

# Mobile Device Registration Instructions

These documented steps are only to be followed once you have gone through and completed the Installation and Setup of the Microsoft Authenticator mobile application. If you have not completed that setup and installation, please follow [this link](#) to the getting started document. If you have completed the previous steps please proceed to the steps below.

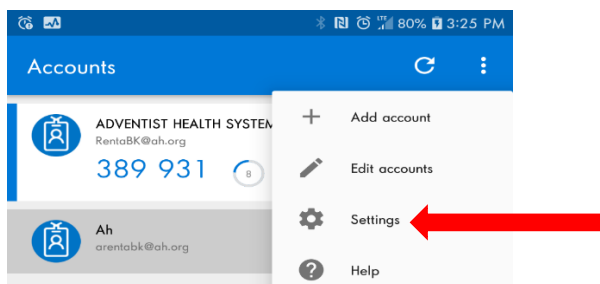

1. From your phone launch the Microsoft Authenticator App

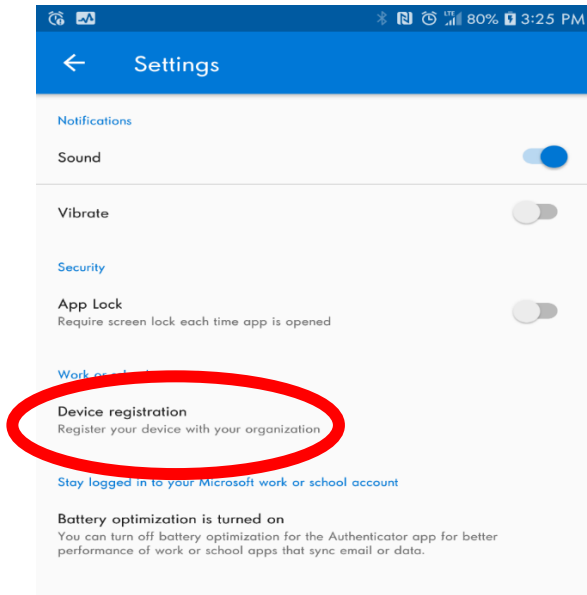

2. Press the three dots in the upper right corner of the application

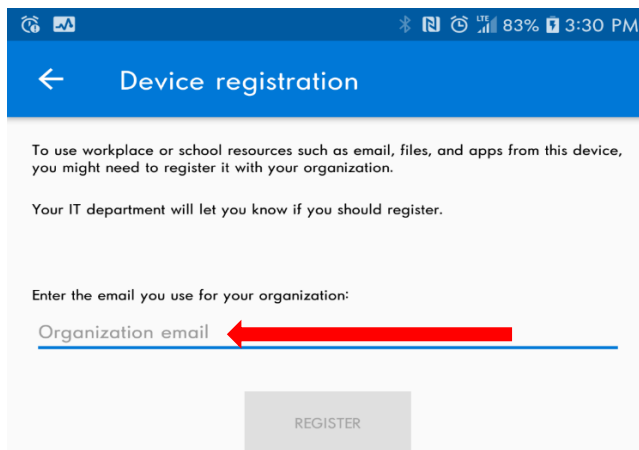

3. From the below menu press on settings

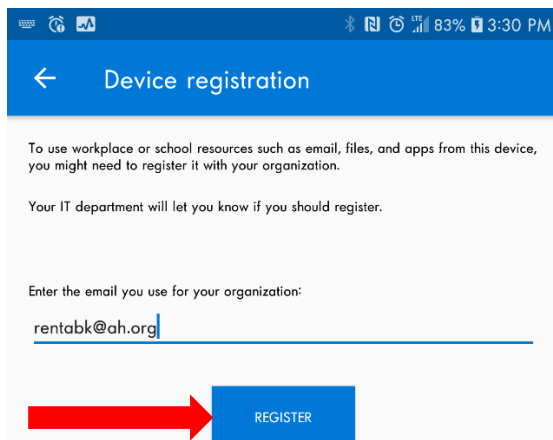

4. Now that you are in the settings press device registration.

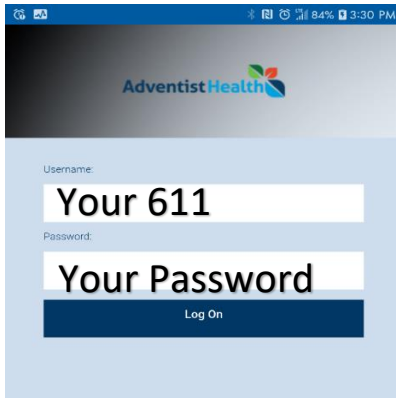

5. Press where it reads Organizational email

6. Type in your full work email as shown below and press register.

7. During this registration process you will see the SAML Prompt for your AH Credentials like below.

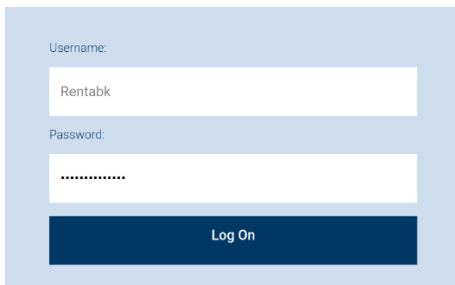

Adventist Health

Username:  
Your 611

Password:  
Your Password

Log On

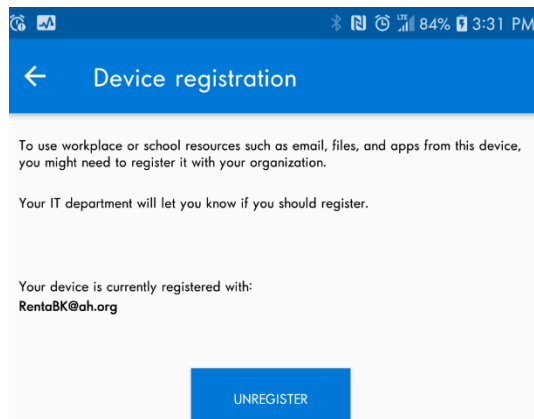

Username:  
Rentabk

Password:  
.....

Log On

8. Once the authentication is complete your registration is also complete. Feel free to close the application.

← Device registration

To use workplace or school resources such as email, files, and apps from this device, you might need to register it with your organization.

Your IT department will let you know if you should register.

Your device is currently registered with:  
**RentaBK@ah.org**
